# Global Health Leadership Symposium

**April 27-28, 2020**

**Griffin Gate Marriott Resort & Spa**

1800 NEWTOWN PIKE | LEXINGTON, KENTUCKY

*Community or academic physicians, advanced practice  
providers, and anyone else who is interested in global health*

# Global Health Leadership Symposium

## Overview

Please join us for this conference on high yield global health topics. This event is designed for all providers in community, academic, medical missions, non-profits, NGOs, to begin a discussion on best practices and what we can all learn from each other to provide the best care globally. Topics will range from refugee and humanitarian response to licensure, pharmacy, and best practices for short term medical trips. There will be innovative workshops on ultrasound and hacks in low resource setting as well.

## Agenda

## Accreditation

### CME Credit

The University of Kentucky College of Medicine is accredited by the Accreditation Council for Continuing Medical Education (ACCME) to provide continuing medical education for physicians.

The University of Kentucky College of Medicine designates this live activity for a maximum of 10.75 *AMA PRA Category 1 Credit(s)*<sup>™</sup>. Physicians should only claim credit commensurate with the extent of their participation in the activity.

The University of Kentucky College of Medicine presents this activity for educational purposes only. Participants are expected to utilize their own expertise and judgment while engaged in the practice of medicine. The content of the presentations is provided solely by presenters who have been selected for presentations because of recognized expertise in their field.

### ACGME Competencies

Patient Care, Medical Knowledge, and Practice-based learning

AN EQUAL OPPORTUNITY UNIVERSITY

## Objectives

Upon completion of this educational activity, participants will be able to:

1. Define the structure of the Sphere Standards and role of different actors in complex humanitarian response
2. Explain principles of maintaining a sterile field, best practices and arranging followup for short term surgical trip
3. Outline management of travel for the chronically ill traveler
4. Perform demonstrated hacks for low resource setting including making homemade oral rehydration solution, homemade ultrasound gel, a bubble cpap and soda bottle spacer, and performing tourniquet test for dengue diagnosis
5. Identify common neurological emergencies in low resource setting and best approach to management
6. Describe best practices and ethical challenges in relation to short term medical trips
7. Identify challenges and concerns to drug importation, distribution, and regulation in relation to short term medical trips
8. Discuss legal framework and licensure of short term medical trips
9. Perform the FASH Ultrasound exam for TB/HIV
10. Explain benefits of POC Ultrasound for obstetric and dyspneic emergencies in low resource setting
11. Describe best practices regarding post-exposure prophylaxis for HIV exposure and basic management of opportunistic infection
12. Explain refugee health screening procedures and common challenges when arriving in the US
